Chapter 5, Piedmont

WOW! What a year it's been for the Piedmont Chapter! At this time one year ago, the bulk of what was left of the Chapter were meeting to decide what would be the best way to shut down 30 years of existence. I'm happy and proud to report that the same core group decided to make one last effort to re-establish our Chapter as the Construction Industry association of choice in the Upstate of South Carolina. We met, we committed to one another, we planned, we set specific goals and we took action and constantly measured our performance against those goals - and, for as much as we have accomplished, there is still much work to do. We look forward to 2008-2009 with a new President, Brian Miller, and a healthy mix of old and new on the Board and in key leadership positions, as we strive to build on the new membership growth from this year with new programs and events

over the next 12 months. Brian will be reaching out to the Upstate by providing a balanced mix of professional educational opportunities - an On-Screen Takeoff Seminar for Members & Non-Members, an Estimating for LEED Projects Program for both Members and Non-Members, a Dynamic Panel Discussion with prominent Developers, End Users, Design Professionals, General Contractors, Subcontractors and Suppliers, along with Social and Community Activities for both members and their families. The whole "vision" being to serve the needs of our members, our Industry and our community. We are tired of being "the best kept secret in our Industry" and plan on making some noise - a lot of noise! And, just to be clear, we aren't turning our backs on new folks who'd like to join in the fun - we already have 5 applications and checks in hand for June 1.

I could rattle off all kinds of statistics and numbers about what we did this past year - being Estimators we can get all caught up in the numbers, but I can sum it all up with the following :

Simply put, we made the Piedmont Chapter a ***PRIORITY*** in our normal, daily routines. We made a ***COMMITMENT*** to one another that we would make this "thing" work and we did it with Can Do ***ENTHUSIASTIC ATTITUDES***. In case you missed it; ***PCEA - Priority, Commitment, Enthusiastic Attitudes***.

It's been one heckuva ride and I look forward to it continuing in the upcoming year!

And, on a final note, our sincere thanks to all the National Officers, National Directors, Committee Chairs and Kim for their Leadership and Dedication to this wonderful "thing" we call PCEA.

Onward and Upward!

Respectfully Submitted,
